

Operating Budget Committee
John Hall, Chair
john.f.hall@nasa.gov

The FY 2009 Operating Budget remains under consideration by certain County Council committees [PS and HHS were reviewing today, for example]. The testimony provided by MCCPTA and the many PTA representatives was well-received and greatly appreciated. At this point, it would be helpful if Cluster Coordinators and PTA leaders would communicate their concerns directly to County Council members, as a gap of at least \$51 million remains between the Board of Education's proposal and the County Executive's proposed Operating Budget. This gap may persist even if the County Council reduces the level of reserves.
